SAIL TO A BRIGHTER FUTURE

A GLOBAL UTILITY COIN ECOSYSTEM

PLATFORM LAUNCH ON

coin.tboatclub.com

WHY TBC COIN?

FAST & COST-EFFICIENT TRANSACTIONS

Built on BNB Smart Chain, TBC uses blockchain infrastructure for token transfers and smart contract interactions, subject to network conditions and fees.

COMMUNITY PARTICIPATION & REWARDS

TBC aims to encourage community engagement through proposed airdrops, trading participation, and ecosystem rewards, subject to project terms.

UTILITY-DRIVEN ECOSYSTEM

TBC plans to develop practical applications across its trading platform, community initiatives, and future Trade Boat Club experiences.

TRANSPARENT BLOCKCHAIN OPERATIONS

Blockchain-based transactions can be publicly verifiable on supported explorers, depending on the contract and network configuration.

TRADE AND EARN TBC

Trade, Participate, and Grow Together.

The concept is designed to connect trading participation with the **TBC ecosystem** through a **structured reward distribution model**.

Eligible participants may receive **TBC-related rewards** in accordance with the platform's rules, reward allocation mechanisms, and applicable terms and conditions.

The long-term objective is to build an **engaged community** around trading, digital assets, and the expanding **Trade Boat Club ecosystem**.

GROW

Build Together

The concept is designed to connect trading participation with the **TBC ecosystem** through a **structured reward distribution model**.

Eligible participants may receive **TBC-related rewards** in accordance with the platform's rules, reward allocation mechanisms, and applicable terms and conditions.

The long-term objective is to build an **engaged community** around trading, digital assets, and the expanding **Trade Boat Club ecosystem**.

TOKEN BURN CLARIFICATION

The proposed burn of **4,000,000 TBC** represents 20% of the stated total supply. If this burn is executed, the circulating or maximum remaining supply will depend on the token contract's supply mechanics and whether the burn reduces total supply. The allocation table above accounts for the entire original supply separately, so the burn must be reconciled with these allocations before publication. **A token burn does not guarantee an increase in market value.**

TOKENOMICS

TOKEN SPECIFICATIONS

Strategic Reserve	10%	2,000,000 TBC
Total Allocation	100%	20,000,000 TBC

AIRDROP REWARDS AND WITHDRAWAL MECHANISM

TBC proposes a structured distribution mechanism for eligible airdrop rewards, designed to support user withdrawals, trading participation, and ecosystem development.

70% DIRECT USDT WITHDRAWAL

The designated portion of eligible rewards is allocated for withdrawal in USDT to the participant's supported wallet, subject to platform rules, liquidity, network fees, and applicable conditions.

20% EXCHANGE TRADING ALLOCATION

A portion of eligible rewards is designated for trading-related participation within the platform's specified trading mechanism.

10% ECOSYSTEM DEVELOPMENT ALLOCATION

The remaining portion is allocated to the designated company wallet to support project development, platform operations, and ecosystem growth, as disclosed by the project.

TRANSPARENCY AND VERIFICATION

The system is intended to operate through blockchain-based transactions and smart contract mechanisms where implemented. Users should be able to verify relevant on-chain transactions using the appropriate blockchain explorer.

Actual withdrawal availability, reward eligibility, transaction execution, and distribution percentages must be defined in the deployed smart contracts and the platform's published terms.

PROJECT ROADMAP

Trade Karo,
TBC Pao

A CLEAR PATH TOWARDS A STRONGER COMMUNITY AND A BIGGER FUTURE

01 PHASE 1

LAUNCH AND COMMUNITY DEVELOPMENT

- Introduce the TBC Coin project and its core vision.
- Establish official communication channels.
- Build and engage the initial community.
- Develop foundational ecosystem infrastructure.

02 PHASE 2

EXCHANGE INTEGRATION AND AIRDROP LAUNCH

- Prepare exchange integration and listing initiatives.
- Introduce the planned airdrop program.
- Expand community participation.
- Publish relevant participation and distribution guidelines.

03 PHASE 3

TRADE KARO, TBC PAO ECOSYSTEM

- Launch the planned trading participation mechanism.
- Implement the proposed 70/20/10 reward distribution model.
- Improve platform transparency and transaction verification.
- Expand ecosystem functionality.

04 PHASE 4

GLOBAL EXPANSION AND LIFESTYLE PARTNERSHIPS

- Explore international community expansion.
- Develop potential boating and yacht-related partnerships.
- Introduce proposed lifestyle benefits and ecosystem utilities for eligible holders, subject to partnership agreements and program terms.

VISION BEYOND 2027

EXPANDING FROM DIGITAL ASSETS TO A GLOBAL LIFESTYLE ECOSYSTEM

Trade Boat Club aims to expand beyond digital assets by exploring partnerships in the boating and marine lifestyle sectors.

Potential future initiatives may include boating experiences, yacht club partnerships, exclusive community events, and other lifestyle-related benefits for eligible participants.

TOGETHER TOWARDS A BRIGHTER FUTURE

SECURITY, TRANSPARENCY AND DECENTRALIZATION

TBC aims to build its ecosystem around three core principles:

SECURITY

Apply appropriate smart contract development, testing, and security review practices.

TRANSPARENCY

Provide clear token allocation information and verifiable transaction records.

DECENTRALIZATION

Leverage public blockchain infrastructure while clearly disclosing any centralized administrative or operational controls.

Security and decentralization depend on the actual contract implementation, access permissions, administrative controls, and ongoing operational practices.

IMPORTANT INFORMATION

T BOAT CLUB COIN

TBC COIN

A MULTI UTILITY COIN

PROJECT INFORMATION

TBC Coin is a digital token project. Its features, utilities, rewards, exchange listings, and proposed lifestyle benefits are subject to implementation and may change.

RISK DISCLOSURE

Digital assets involve substantial risks, including price volatility, liquidity constraints, smart contract vulnerabilities, regulatory changes, and potential loss of capital. No increase in token price, financial return, or future benefit is guaranteed.

DUE DILIGENCE

Users should independently evaluate the project, verify the official smart contract address, and review the applicable terms and risks before participating.
